

Workshop: "Seed Quality and Seed Applied Technology"  
September 10, 2010 - 14.00 to 17.00hr

1. Opening (by organizer, Dr. Yang, FSMO)
2. Challenge and opportunity for seed science and technology in China
3. Seed quality aspects and evaluation methods
4. Seed testing standardization and the role of ISTA
5. Impact of production conditions on seed quality
6. Processing technology for improved seed quality
7. Seed treatment for plant protection and sustainable yield improvement
8. Advanced seed enhancement technology
9. Summary (by chairman)
10. Closing words (by organizer, Dr. Yang, FSMO)

Additional information on the speakers:

***Challenge and opportunity for seed science and technology in China***

**Prof. Wang JianHua**
