

DISCO™ AG

White L-800

1. General information

Product name	DISCO AG White L-800
Description	L-800 contains a high level of solids and has a very high density. Do not use with materials with pH lower than 4.
Product characteristics	L-800 is used as a liquid flow agent when added to the slurry mix. It reduces stickiness during the treating process of soybean seed.

2. Dosages and directions for use

Dosages	Soybean 1.0 to 1.5 fluid ounce per CWT seed
Directions for use	<ol style="list-style-type: none"> 1. Dilute with water to achieve optimal distribution/coverage of the film coat 2. Stir well before use to ensure that the product is homogenous 3. Add DISCO™ to water ONLY, before adding to chemical concentrates 4. All components of the treatment slurry must be compatible. Ensure that this is the case before large scale mixing 5. After addition of the DISCO™ the treatment solution should be mixed for approx. 10 minutes until a homogenous mixture is obtained

3. Physical data

Color & effect	Off-white
Density	1.75 g/cm ³ (14.604 lbs/gal)
pH	7.6
Brookfield Viscosity (cP)	3000 mPas

4. Storage recommendations

6 months when stored in closed containers. Store between 0°C - 20°C.

5. Safety and waste

Waste must be disposed of in compliance with regional, national and EC regulations and via a licensed waste processing company. Do not dispose of waste via the sewer system. For toxicological properties we refer to the MSDS of this product.

6. Disclaimer

INCOTEC's DISCO™ formulations are produced with the best possible care to ensure excellent consistency from batch to batch. Minimal variations, however, may occur due to small variations between batches of sourced raw materials. Descriptions, recommendations and illustrations will correspond as closely as possible to tests and practical experience. All information will be provided to assist professional users, whereby variable local conditions must be taken into account. This information, therefore, does not imply any legally binding assurance of certain properties or of suitability for a specific application, treatment or purpose so that no liability for any deviations can be derived therefrom.

7. Packing options

Packing type			
Name	Tote	Drum	Jug
Contents	250 Gal	30 Gal	2 X 2.5 Gal
